

Critical Notes for Legislator Meetings

Remember:

KISS: Keep it short and simple!

Legislators want to know:

1. What do you want me to do?
2. Why?
3. How?

Take someone with you. To quote Lynne Moore, “Never worry alone!”

Remember you are selling ideas, insights, explanations—just like you do in therapy.

Find the resistance. Overcome it!

Be infectious and excited. Think clearly about why the OSH redesign proposal is focused on values and principles you believe in. How will RxP help your clients? How will Rewarding providers who provide critical needs (formerly the rural provider tax credit) keep Oregon’s intellectual capital and increase access for clients and quality of care.

Get feedback about what/how we could present this information more effectively next time.

WRITE YOUR THANK YOU NOTE IMMEDIATELY.
